

# **ProximityData**

## **Company Profile**

Proximity Data, Inc., founded in January 2003, is a technology company specializing in the development and marketing of products enabling market proliferation of Serial ATA Technology. As a company, Proximity Data, Inc. is known for its strong electro-mechanical and software design competency. Additionally, Proximity Data, Inc. provides engineering design services for companies predominantly involved in the data storage and computing industries.

Proximity Data Inc. has a senior management team with extensive start up experience as well as Fortune 100 background. Zbigniew Sobolewski, the company's Founder, President and CEO, has a proven track record of successful startups in the data storage industry, most recently with LeftHand Networks. He has assembled a team of experienced innovators who combine academic research expertise with industrial design experience.

Proximity Data, Inc. is currently funding R&D efforts in the following areas:

- Advanced Serial ATA Board-level Adapter Solution
- System Software support for Data Storage Solutions implementing Serial ATA technology for Enterprise Applications.
- Enclosure Design for Enterprise Class Systems
- Serial ATA Interconnect for Data Storage Network Infrastructure

Proximity Data's current technology partners include key corporate promoters of the SATA standards.

Proximity Data is a member of the Serial ATA 1.0 and Serial ATA II working groups ([www.serialata.org](http://www.serialata.org)).

## ***Company current product offerings***

- PCI-X to Serial ATA Adapter with Intel 31244 controller featuring 32/64 bit, 33Mhz to 133Mhz PCI/PCI-X interface for enterprise server platform
  - Up to 4 SATA devices in Legacy or DPA Mode
  - Low profile (Suitable for 1U and 2U servers)

- Serial ATA 4-port adapter design with external port and custom interconnect features available upon request for OEM clients.
- Serial ATA 16-port solution in 3U server enclosure, available in Q3 of 2003.
- Enterprise storage interconnect solution design specifications fully compliant with Serial ATA standard, are available for qualified partners under NDA agreement.
- Consulting and Custom Engineering Services
